## Build Environments - Faster, Smarter, and more Efficiently

Oracle Consulting can help you realize the value of cloud computing faster by moving your on-premises environments to the cloud. Oracle Consulting will review your current state infrastructure architecture, define a cloud architecture, provision and configure the compute service instances, and migrate workloads to your Oracle Compute Cloud Service instances. Oracle Consulting will assist with configuring monitoring, management, and security features of the Oracle Compute Cloud Service instances as part of the Service. This engagement will provide your team with the knowledge, processes, and skills to enable future infrastructure deployments to the Oracle Compute Cloud Service.

## Key Deliverables:

- Workshop to provide an overview of Oracle Compute Cloud Service capabilities, benefits and leading practices when provisioning and managing Oracle Compute Cloud Service environments.
- Workshop to review customer's on-premises environments and define infrastructure requirements and architect Oracle Compute Cloud Service environments.
- Provisioned and configured Oracle Compute Cloud Service instances.
- Migrated workloads.
- Engagement summary including Oracle Compute Cloud Service environment configurations specific to your unique requirements and next steps for Oracle Compute Cloud Service adoption and maturity.
